**Demolition of Supertech's Non-compliant Towers Must Start in 2 Weeks: SC**

Falgun Halder @timesgroup.com

New Delhi: The Supreme Court on Monday said the demolition of ready developer Supertech's two non-compliant residential towers in Noida — Apex and Coyana — should begin within two weeks. On January 12, the top court had pulled up the builder for not following its order to demolish the two 89-storey towers which, it said, were built in violation of norms.

"The SC has also directed Noida authorities to conduct a meeting of all the stakeholders within 72 hours, and demolition work should commence in two weeks," said Anish Agarwal, advocate on record, for the Residents Welfare Association (RWA).

According to Agarwal, the next hearing will take place after two weeks. Noida authorities officials said a meeting will be called to discuss the NOCs that are required from various stakeholders for the demolition. The issue of a gas pipeline going through the project area will also be discussed.

"As per SC oral directions, process of demolition will commence / start within two weeks from today. CEO Noida will hold meeting with all stakeholders within 72 hours to expedite / ensure no delay," said Hita Maheshwari, CEO of Noida Authority. The authority has not held the meeting on Wednesday.

The demolition plan submitted by Supertech in court talks of six months, out of which three and a half months are demolition time while rest is required for site clearance.

The two buildings together have 985 apartments and 21 shops. They are part

of the builder's Emerald Court project. For the demolition, Supertech has awarded the letter of intent to Edifice Engineering of Mumbai. Demolition firm has sought NOCs from different agencies with regard to transportation, storage and use of explosives, environmental and pollution control agencies, and traffic diversion plans, all of which are to be provided by Noida Authority.

The company said advance payment has been made to Edifice Engineering for mobilisation of workforce, materials and machines to the site, in accordance with the agreement.

On August 21, the Supreme Court had directed Supertech and Noida authorities to demolish the two residential towers within three months and refund homebuyers' money within two months.

**STARTING MARCH 17... BARC to Resume Publishing Data on News Viewership**

**Our Bureau**

Mumbai: BARC India, the joint industry body for TV viewership measurement, said on Monday it will resume publishing of viewership data for the TV news genre, including that of the individual channels, starting March 17.

The first set of data will be available for Week 10 of 2022, i.e. March 14.

The announcement came almost a month after the information and broadcasting ministry's (MIB) suspended the ratings body to "immediately release" TV viewership ratings for news channels, which had been suspended since October 2020.

"BARC India and the industry at large welcome the MIB's directive to resume the release of data for individual news channels. The data will be released as per the augmented data reporting standards for news and special interest genre channels on a 4-week rolling average basis, which would be released regularly every week along with the estimates for all other channels. All viewership data will be published on the platform that all our subscribers use."

BARC said that in the weeks leading up to the resumption of news channel ratings, the agency will be reaching out to its constituents to inform and educate them about the details of the augmented data reporting standards.

"With the active support of the Technical Committee members, all our stakeholders, and industry experts, we believe we have a statistically sound and effective solution which helps augment the robustness of the data and reporting, which we had set out to do. This would be another significant step taken by BARC India to ensure a strong recovery for advertisers and media organisations," BARC said.

BARC had stopped the news genre ratings pending an investigation into allegations of rigging by some news channels.
