Pursuant to Assignment Agreement dated March 18, 2015, ASREC (India) Ltd., has acquired the financial assets of aforesaid borrower from Bank of India with all rights, title and interest

ment official, who did not wish to be identified.

As per section 11A of the Mines and Minerals Development and Regulation (MMDR) Act, the Centre can auction coal and lignite mining licences to companies engaged in iron and steel, power and coal washing sectors.

The official said the clause can impede the endeavour to open up the sector through commercial mining.

"The clause was earlier kept to ensure only serious players enter the sector, which was then restricted to only captive mining firms. We have to remove the condition mandating bidders to be already engaged in coal mining operations in India, to open up

revenue-sharing basis and it proposes to announce incentives for quick production from mines.

The government will not regulate prices, marketing or sale of coal from mines, but minimum production from the commercial coal mines will be specified, and bank guarantees are planned to be linked to it to prevent hoarding and creation of artificial scarcity.

CIL Capex to be ₹6,900cr in Q4

Company to invest in land, machinery, wagons acquisitions and development

Debjoy Sengupta
@timesgroup.com

Kolkata: Coal India (CIL) will spend nearly ₹6,900 crore in acquiring land, heavy mining machinery, wagons and on-mine development activities in the current quarter, said its chairman AK Jha.

The state-owned miner has budgeted a total investment of ₹10,000 crore for this financial year, and it spent about ₹3,100 crore in the first nine months of the fiscal. Till November 2019, it had invested about ₹2,400 crore, and in December it spent another ₹700 crore.

"Coal India will be spending more than ₹4,000 crore in acquiring heavy earthmoving machinery and procuring its own wagons for transporting coal to consumers," said a senior CIL executive, who did not wish to be identified. "Investment in heavy mining equipment will help the company improve production scale at large mines and boost per day production from the current level. Investment in wagons is expected to be around ₹700 crore, while the rest is likely to go into procuring heavy machinery."

Another ₹2,000 crore will go

into land acquisition for expanding existing mines or opening new projects. CIL will spend the rest, nearly ₹800 crore, in mine development activities including logistics arrangement for coal evacuation such as roads and bridges.

Investment in heavy machinery is necessary for the company at this stage because it has decided to advance its target

of one billion tonne production capacity achievement by two years to 2024. It intends to produce 750 million tonnes in the next fiscal, while this year's target is 660 mt, necessitating a nearly 14% increase in production. In order to achieve these targets, CIL

and its subsidiaries have firming up plans to spend ₹56,000 crore on 68 projects with annual peak production capacity of 500 mt.

These projects are at various stages of implementation and almost 55% of total capital outlay would be undertaken by South Eastern Coalfields, which is working on 23 projects with a total peak production capacity of 192 million tonnes, at an investment of ₹30,783 crore.
