Volumes Declining in India Due to Inflation, Says Unilever Chief

Sagar Malviya | timesgroup.com

Mumbai: Unilever global chief executive Alan Jope said market volumes in India are declining and consumption weakness is due to the impact of inflation on the Indian consumer, particularly in rural areas.

The British consumer goods firm said India has been a particular area of struggle from a volume perspective as it

saw double-digit pricing growth while still maintaining high single-digit volumes. This is despite the overall market showing a volume decline, said the chief of Dove and Rin.

"We are confident of Hindustan Unilever's ability to continue to grow ahead of the market. We see that reflected in very strong market share performance in India," Jope told investors in an earnings call. India has already reported 19.2% growth and volumes are up 6.8%. This

growth is broad based and it's driven by strong competitiveness and a portfolio that's been built with brands performing up and down the price ladders.

During the first quarter, Unilever's quarterly earnings, said it outperformed the overall fast-moving consumer goods (FMCG) market, which expanded 7% in value, while volumes fell 3%. Over the past year, sales volumes in rural areas have been consistently falling, with declines exceeding 9% and 7%, respectively, during the January-

March and April-June quarters.

In India, consistent price hikes across categories continue to sap consumer household expenses and impact demand for consumer goods. During the quarter, HUL increased prices by 12% compared with the year ago period, and warned prices would continue to rise amid record inflation in the West.

For Unilever, HUL contributes about 11% or US\$ billion to the Anglo-Dutch company's overall sales versus the US,

which accounts for 19% or about US\$9 billion. Along with China, these three markets are the "highest priority countries" for Unilever and represent nearly 50% of the London-based consumer goods multinational's turnover in 2021.

"The company said its investment in digital infrastructure is enabling them to better understand consumer needs and serve customers as well as run an efficient supply chain. "We are making significant investments in our supply chain networks in our priority markets with India, US network resets," said Unilever chief financial officer Graeme Penketh.

IMF Slashes India Growth Forecast for FY23 to 7.4%

Pares global growth estimate to 3.2% for 2022 from 3.6% forecast in April

Global Slowdown

Downgrades for China, US, India drive downward revision

9.5% inflation likely in emerging market, developing economies

yearly external conditions and more rapid policy tightening," the multilateral agency said. It expects India's economy to grow 6.1% in FY24.

India's gross domestic product growth slowed to 11% in the January-March quarter as FY22 ended with an 8.7% expansion. China's economy is seen growing 4.3% due to external shocks. Tightening global financial conditions associated with expectations of steeper interest rate hikes by major central banks to ease inflation pressures and spillovers from the war in Ukraine will also drag down growth. It said a tentative recovery in 2022 has been followed by increasingly slowing developments in 2022 as risks became more palpable. "Several shocks have hit a world economy already weakened by the pandemic: higher-than-expected inflation worldwide—especially in the US and other European economies—triggered higher financial conditions a worse-than-anticipated slowdown in China, reflecting Covid-19 outbreaks and lockdowns," it said.

For emerging market and developing economies, the negative revisions to growth in 2022-23 reflect mainly the sharp slowdowns of China's economy and the moderation in India's economic growth, according to the IMF.

Our Bureau

New Delhi: The International Monetary Fund on Tuesday slashed India's growth forecast for FY23 to 7.4% from 8.5% estimated in April, saying the revision reflects mainly less favourable external conditions and more rapid monetary policy tightening. In April, the IMF pared India's FY23 growth projection from 9% to 8.5% citing higher commodity prices.

In its latest World Economic Outlook report, it pared the global growth estimate to 3.2% for 2022 from the 3.6% forecast in April and a 6.1% rise in 2021. China and the US were other countries that saw large cuts in growth estimates.

Among the major economies, only Saudi Arabia is seen growing faster than India in 2022 at 7.6%. Inflation is seen at 6.5% in advanced economies and 9.5% in emerging market and developing economies in 2022, upward revisions of 0.5 and

0.8 percentage points, respectively.

"The outlook for India has been revised down by 0.8 percentage point to 7.4%. For India, the revision reflects mainly less fa-

New Independent Directors Are Back in Classroom

Pavan Banerjee | timesgroup.com

New Delhi: Exam fever is nudging India Inc's new independent directors (IDs) to hone their skills as per the current requirements. In 2019, the Ministry of Corporate Affairs made it compulsory for IDs to pass a self-assessment exam to qualify for directorship. To clear this hurdle, several aspirants are resorting to their own, or study up.

The results of these efforts are evident based on the exam clearance rates. According to information accessed through RTI, a total of 10,577 independent directors took the self-assessment exam till June 30. Of these, 423 have failed, while 10,154 have cleared the test. The pass percentage is 96%, the data show.

An independent director who spoke on the condition of anonymity told ET that he had taken up study for the first time in nearly three decades of his life as a professional. "If someone fails to clear the exam, it is not a deterrent on the career aspirations but also a discomforting fact in the professional circles," he said, adding

Exam Frenzy

Aspirants Independent Directors Study for Self-Assessment Exam

The exam was made mandatory in 2019. The exam is not very difficult, however, recent trends show some preparation, especially if the IDs are professionals from say technology or finance, said company law experts. "The IDs who are chartered accountants or company secretaries, the exam may be less challenging. "The mandatory exam is nudging IDs to update their skills as per current market trends," said Pavan Vijayarajendran, Corporate Professionals, he said, adding

Banks want a Say Before Lokpal Refers Staff Cases to Agencies

Dheeraj Tiwari | timesgroup.com

New Delhi: Banks have reached out to the government demanding that the Lokpal should consult lenders before referring to agencies cases against employees to investigating agencies. Under the existing provisions on receipt of a complaint, the Lokpal may order a preliminary investigation before referring to agencies for inquiry into or through other investigating agencies.

"We are seeking an alignment in existing policies regarding vigilance action on bank officials," a senior bank official said. "The

ABDF is a more competent authority on financial sector cases.

Indian Bankers' Association chief executive Sunil Mehta confirmed that the lenders association has taken up the issue with the Lokpal. "We are engaged with the government on various issues, this is one of them," he said. In January, the Central Vigilance Commission (CVC) expanded the scope of the ABDF to examine bank frauds of ₹ 50 crore and above and recommend action. So far, 62 cases have been referred to ABDF of which it has given its advice on 81.

In August 2019, the CVC in consultation with RBI constituted the four-member ABDF headed by former banker and ex-vigilance commissioner TM Bhaskin. It is to function as a "safety valve" for bankers and refer cases to ABDF rather than initiating separate inquiry either independently or through other investigating agencies.

"We are seeking an alignment in existing policies regarding vigilance action on bank officials," a senior bank official said. "The
